

I am writing to you in response to the FCC proposal to expand the LPFM services that would allow new LPFM stations to take priority over current FM translator services. I am a faithful listener and sponsor of K-Love Radio station which is often heard on FM translators.

I wanted you to know that K-Love has been a great blessing in my life and the life of my family and friends. K-Love has saved lives in countless ways including that of mine. Without getting into detail of my personal life I would like to say that if it was not for this station I would be in a situation that I don't even want to imagine. "Positive and Encouraging" is not just a cute jingle or motto that they play on the air, that is what they truly are. They are a positive and encouraging force in this world, in the state of Illinois, in my community, my family and most importantly in me....Everyone I have introduced to K-Love has been positively and in many cases dramatically effected by this station, and in return have positively effected their friends, family and community. To do anything that would take a station like this off the air would be an injustice not only to me, my family, friends and community... but also to the unmentionable # of youth and children that are being positively molded for the future.

I believe that the services provided by K-Love are in the public's BEST interest. And that displacing K-Love by an LPFM would be detrimental both short term and long term to the communities that are affected by this great station.
